

What we do...

- ✓ Create an individual care plan for Nation members who need help with health care.
- ✓ Visit our clients in their homes or at the Health Center - whatever works best for the client.
- ✓ Monitor client health including blood pressure, blood sugars, medications, hemoglobin, etc.
- ✓ Provide foot care to people who cannot cut their own toenails because of decreased mobility, thickened brittle toenails, curved nails, ingrown nails, fungus infected nails, diabetes, and those with corns or calluses.
- ✓ Provide help with bathing, getting dressed, brushing teeth, brushing hair, and catheter care, where needed.

✓ Manage all aspects of wound care including: using specialty dressings where needed, dressing different types of wounds, hastening the healing with different techniques, teaching families how to change a dressing and providing dressing products; working with, and providing support and education for, clients who choose to use traditional medicine.

✓ Teach clients about medications including what each drug does and its side effects, how and when to take them; how to take care of their hygiene; how to manage pain; signs and symptoms of infection; how to manage diabetes including how to test blood sugar; how to decrease blood pressure; and palliative care.

✓ Help clients obtain medical supplies and equipment such as dressings, catheters, materials for incontinence, walkers, wheelchairs, bathroom and bedroom safety equipment, and lifts.

Additional support...

- We collaborate with Doctors, Specialists, Oncologists, Pharmacists, Nurses, Physiotherapy, Occupational Therapy, Hospital Diagnostic Imaging Departments, Non Insured Health Benefits and other agencies as needed by
- We help clients access Long Term Care, Assisted Living, or Respite Services.

LRRCN Home Care provides in-home respite as well, under limited circumstances.

We do not...

- ✗ Provide emergency or after hours care; funding for home renovations or wheelchair access; or transport for those who don't have a ride to the Health Center.
