Re: Fox Lake COVID-19 Vaccine Update

To Nation Residents and Members,

Our nursing team from ISC, with help from Nation Health Staff continue to offer COVID-19 and meningitis vaccines to residents of Fox Lake 18 years of age and older at FLE.

At the end of Friday, over 500 COVID-19 vaccines have been given.

Because of having to lock down in Fox Lake for 2.5 days this week, many residents of Fox Lake were not able to come to the clinic yet. The vaccine clinics at FLE will be extended into next week to give Fox Lake Residents more time to come in.

At this time, the COVID-19 vaccine will continue to be offered to the following people in Fox Lake:

- Fox Lake Residents (people who live in Fox Lake)
- 18 years old and up
- This includes students who were back home on their breaks

In Garden River and John D'Or Prairie the COVID-19 vaccine will be offered to:

- Garden River and John D'Or Prairie Residents (people who live here)
- 65 years old and up
- The public health nurses are working with Home Care staff to arrange

We understand there are people in John D'Or and Garden River 18+ who are interested in taking this vaccine as well, and your turn will come. Although we do not know when.

But right now, the people of Fox Lake and our Elders are the priority.

Thank you,

Elizabeth Alix McGregor RN, BScN
On behalf of LRRCN Emergency Management Team
