

NOTICE

DANGEROUS DOG SITUATION GARDEN RIVER

This past Wednesday a resident was surrounded and nearly attacked by a pack of dogs in Garden River. Fortunately, this person was not hurt. But it could have ended very differently.

As you may know in 1999 a child was killed by a pack of dogs here in LRRCN. We do not want this to happen again.

- Tie up your dogs immediately or keep them inside the house or a fenced yard
 - This applies at ALL TIMES, not just next week
- Please do not let your children play or walk around outside until this situation is resolved
- The EMT is arranging for an organization to come to Garden River to pick up the dogs who are roaming around.
- If dogs are still roaming the community next week they will be picked up and taken out of Garden River.
