

The Paskwa Fire (HWF030) | May 10, 2023 as of 9:00 a.m.

The Paskwa fire is located in the community of Fox Lake and was detected on May 2, 2023. This fire is classified as Out of Control (OC) and the last recorded size is 21,297 hectares. Yesterday evening and overnight the east side of the Paskwa fire was very active. This activity is no threat to the community of Fox Lake at this time.

Firefighters and aircraft continue to work on putting out hotspots within the community to reduce fire spread to homes and critical infrastructure. The forecast for the coming days will see a return in continued hot and windy conditions. As of this update the fire is approximately 2.9 km away from the cultural heritage site and remains on the south side of the Peace River. On southwest side firefighters and heavy equipment have been creating control lines along the fire perimeter, working their way up from River road towards the Peace River

Firefighters are using all of their available tools to control this wildfire. Ignition operation tactics reduce fire spread by using current natural barriers to control the fire line. Ignition plans will continue to be created to find opportunities to burn areas of concern along the fire perimeter.

As the fire situation changes firefighters, helicopters, support staff, heavy equipment and airtankers will be working hard to re-evaluate their tactics to prevent fire spread to homes and critical infrastructure. Today there is 70 firefighters, 11 helicopters, heavy equipment and airtankers as needed. Additional firefighters and resources have been requested not only for this fire but to assist with the provincial situation as well.

Little Red River Cree Nation has an evacuation order in place for the community of Fox Lake. For information regarding the evacuation, please stay informed by visiting the Little Red River Cree Nation's Facebook page.
