

The Paskwa Fire (HWF030) | May 9, 2022 as of 9:00 a.m.

The Paskwa fire is located in the community of Fox Lake and was detected on May 2, 2023. This fire is classified as Out of Control (OC) and the last recorded size is 21,297 hectares.

Yesterday's slight reprieve in conditions decreased fire activity however the forecast for the coming days will see a return in continued hot and windy conditions. Yesterday the fire experienced active ground fire with further spread on the south, northeast and east side of the fire. As of this update the fire is approximately 2.9 km away from the cultural heritage site and remains on the south side of the Peace River.

Structure protection resources continue to work within the community on hotspots. Firefighters are using all of their available tools to control this wildfire. Ignition operation tactics reduce fire spread by using current natural barriers to control the fire line. Yesterday an ignition plan on the southeast side of the fire was successful in burning areas of concern along the fire perimeter.

As the fire situation changes firefighters, helicopters, support staff, heavy equipment and airtankers will be working hard to reevaluate their tactics to prevent fire spread to homes and critical infrastructure. Today there is 67 firefighters, 11 helicopters, heavy equipment and airtankers as needed. Additional firefighters and resources have been requested not only for this fire but to assist with the provincial situation as well.

Little Red River Cree Nation has an evacuation order in place for the community of Fox Lake. For information regarding the evacuation please stay informed by visiting the Little Red River Facebook page.
